Borehole solar update:

It is working!!! Praise the Lord!!!! There wasn't enough money to get solar power for our well in Kenya but we knew it was time. Solar power would lower our electric bill and allow the Haven family and the community continued use of the well free of charge. It would provide clean water during extended power outages. It would protect our pump from damages caused by electrical surges and other power issues.

The Lord spoke to your hearts and you gave or prayed for us and within two months the money came in! The exchange rate for

Kenyan shillings was the highest we have ever received and we were able to install the solar system under budget. The Lord made it happen! *Janice*

A Big Thanks to the Inheritance World Ministries team! They came to Kenya in August with a mission to be used by God, and that they were!

They furnished materials to tile and paint the kitchen. They laid tile, cleaned, painted, and worked a VBS, all with smiles on their faces!!

Vacation

Bible School, with skits, Bible character costumes, classes, games, snacks and more for 270 children for four days at the public school! Students and teachers heard and received the Word of God.

200 Bibles were purchased and gave out to those in around the community.

The **Jesus Film** in the Kikuyu language was shown to hundreds at Haven on the Hill and **many came forward to receive Christ.**

Dave praying over the ones that received salvation.

Gave clothes to over 600 people from the Haven community.

Ministered the love of God by visiting our neighbors' homes with clothes, Bibles and prayer.

We love and appreciate you!! Thank you for all you do. We could not do this without your prayers and support! (Little by Little makes a bunch)

What's Next?

There is much to be done. I (Phil) am returning to Kenya in late November to visit the Haven family and work on several areas:

- Finish the new kitchen. This includes cabinets, shelving, firewood cookers, tables, utensils and supplies.
- Beneath the solar panels is a perfect place to build a much needed storage building. We plan on starting this when I go to Kenya in November.
- Solar outside lights and, possibly, solar hot water for kitchen.
- Due to age and other factors, we need to trade in our two cows for younger ones.

VBS Game Time in Kenya

Current needs. Please pray over these:

- Finances for the Haven's monthly operating expenses.
- Continued construction to accommodate more children.
- Sponsors for the boys at the Haven.
- God's Wisdom to carry out our assignment.
